

Need housing help?

Coordinated Entry System

Coordinated Entry means “no wrong door”. If you are in need of housing assistance, rather than apply at several agencies you can complete a pre-screen form to determine eligibility for multiple housing programs in Rock and Walworth counties.

Based on your current situation and level of need, you will be referred to the Rock-Walworth Prioritization List. If/when a program has an available housing opportunity, the person or family with the greatest level of need will be contacted by the program with the opening.

Community Action offers programming for individuals and families experiencing homelessness.
