Community Kids Learning Center
COVID-19 Parent Agreement

During this difficult and stressful time, we at Community Kids want you to know that we value the safety and wellbeing of you and your child(ren). For this reason, we ask that you take time to read through the following statements that we have put into place to keep everyone healthy and safe:

- If you, or anyone in your household, meet any of the following criteria, please do not visit or pick-up/drop-off a child at our program:
  - Have symptoms of COVID-19 (fever, cough, shortness of breath),
  - Have been in contact with someone with COVID-19 or suspected to have COVID-19 in the last 14 days, or
  - Have returned from travel to areas with community spread of COVID-19 as defined by the CDC in the last 14 days

- When picking up or dropping off a child(ren) please practice “social distancing” (6 feet) at all times and sanitize your hands immediately upon entry.

- When scheduling your child(ren), only schedule for hours of on-site work and travel time. For any hours there is a parent/guardian available at home, we ask that your child also be home.

- If your child becomes ill while in our program, you will be asked to pick-up your child within one hour of the program contacting you. You MUST ensure we have a way to reach you by phone, please be sure we have the most accurate contact information available. Please have plans in place to ensure you or a designated person is available if this should occur.

**Amendment to illness policy**
Children will be monitored for signs or symptoms of COVID-19 daily. **Children will be asked to stay home or return home if any of the following applies:**

- Have had a fever of 100.4 or higher or other potential symptoms of COVID-19, such as shortness of breath or persistent dry cough, within the last 72 hours

- Have a household member who have had a fever of 100.4 or higher or other potential symptoms of COVID-19, such as shortness of breath or persistent dry cough, within the last 72 hours

**Returning to a child care facility after suspected COVID-19 symptoms**

- If an individual or a household member has a fever, cough or shortness of breath and has not been around anyone who has been diagnosed with COVID-19, they can return to the center:
  - If they or a household member had a fever: 5 days after the fever ends without the use of fever-reducing medication AND there is improvement in their initial symptoms (e.g. cough, shortness of breath)
  - If they or a household member did not have a fever: 3 days after they see an improvement in their initial symptoms (e.g. cough, shortness of breath)

- If an individual or household is diagnosed with COVID-19, the child(ren) must remain out of the program for a minimum of 14 days after the onset of first symptoms.
